CABLE NEWS.

A War of Races.

VIENNA, May 10.—The strife between the Germans and Czechs continues. A violent scene occurred to-day in Unterhaus between the German and Czech deputies. Professor Maasen was hooted at the university. Fierce street fights take place at Prague between the German students and Czech mobs.

Cuban Annexation.

MADRID, May 10.—In congress to-day the Cuban home rulers declared that the government unless it promptly found means to improve the prospects of the Spanish West Indies by granting the liberty demanded by the Creoles, would find itself unable to check the Cuban movement in favor of annexation to America. Moert, minister of foreign affairs, replying for the government, said that Spain and America desired a reciprocity treaty whereby, although it was impossible to obtain privileges for the West Indies sugar, Spain hoped to obtain an advantage in return for concessions made in favor of American imports.

The minister of foreign affairs informed congress to-day it was improbable that a commercial treaty between the West Indies and the United States should be arranged. The government was not inclined to enter upon a tariff war.

Duty on Cattle.

BRUSSELS, May 10.—A bill fixing the duty on imported cattle was passed in the chamber of deputies on Tuesday, with amendments exempting cattle for re-export.

The chamber of deputies approved the bill imposing import duties on cattle and meat.

The New Explosive.

PARIS, May 10.—In relation to a dispatch from Berlin stating that experiments showed that melinite decomposes if kept too long and is therefore of no use for war purposes, the French government asserts that the substance experimented with in Berlin was not melinite, and base their assertion on the fact that melinite is unknown in Germany.

National Feeling Running High.

M. Lamoreux, manager of the Eden Theatre, in which "Lohengrin" was produced recently, but which was withdrawn owing to opposition by a portion of the people to German works, has entered a suit against the newspaper *La France* to recover 50,000 francs damages for an attack made upon the opera.

French Mobilization.

In the chamber of deputies to-day, Gen. Boulanger, minister of war, submitted his bill for an experimenal mobilization of the army in October. The chamber, however, decided that the sugar tax bill must precede the military bill.

French Tax on Sugars.

The chamber of deputies agreed to a surtax of 10 francs per 100 kilogrammes on all sugars.

The Mobilization Bill.

Gen. Boulanger's mobilization bill provides for a credit of 50,000,000 francs, to defray the expenses of an experiment, maximum time for the mobilization to be fixed in ten days.

England and France in Africa.

The *Temps* says an agreement is made between Salisbury and Flourens defining the sphere of action of England and France in East Afrsca. England recognizes the rights of France over the Obock territory and the Gulf of Tadjourat and cedes the island of Mashab to France. The frontier of the French territory extended from Djibougeh to Herrar. France admits the authority of England over the territories of Cape Djiboujeh.

India's Trade.

LONDON, May 10.—The annual trade returns of India, published, value of imports during the year is £73,860,000 against £71,130,000; previous year's exports are £90,200,000 against £84,990,00 the previous year. Revenue derived from import duties is £2,498,000 against £2.250,000 during previous year. The revenue from export duties is £700,000 against £730,000 during the previous year.

The Coercion Bill.

In the house of Commons to-day, in committee on the Coercion Bill, Healy moved an amendment that a person committed for contempt of court be treated as a first-class misdemeanor. He argued that witnesses committed for refusing to answer questions ought not to be subject to the same punishment as a criminal. When the last coercion bill was in effect the mere detention of many persons shortened their lives ten years. (Cries of hear, hear.)

Balfour, chief secretary for Ireland, said persons committed could avoid punishment by answering the questions. There was no difference between the case under the clause and cases of contempt under ordinary law.

Jno. O'Connor, nationalist, said if the government imprisoned witnesses as common criminals for refusing to answer questions, it would be a disgrace to civilization. Why did they not propose to apply the old fashioned implements of torture, including the thumb-screw and rack.?

Healy's amendment was finally rejected 195 to 144.

Healy moved to remove the penalty for contempt in the case of witnesses to seven days' imprisonment. This was defeated by 138 to 111. Another motion referring to witnesses was negatived.

The Cloture.

The informal meeting of the cabinet was held to-day to discuss the plans for expediting the passing of the coercion bill. It was decided to abandon the attempt to effect a wholesale application of *cloture* at a fixed date. Russell, chairman of the committee, will not put *cloture* until each clause be fully discussed, and compelled ministers to adopt the plan of asking for *cloture* after *bona fide* amendments had been heard. Ministerialists now calculate the discussion in committee will last three weeks longer.

The Parnellite Charges.

A committee of leading conservatives made unofficial overtures to Gladstone and Morley with a view of finding out whether they will assent to the appointment of a commission consisting of two English judges and one Scotch judge to inquire into the charges against the Parnellites.

Gladstonians were opposed to troubling themselves any further with the question unless the government takes definite action. While the government is not disposed to make a move until the coercion bill is passed. Unionist members have been summoned to attend a meeting for the purpose of declaring their position to the club on the home rule question. Gladstonians being in the majority, will outvote their opponents and compel the withdrawal of the unionists from the club.

The German Spirit Bill.

BERLIN, May 10.—In the Reichstag today began the debate on the first reading of the spirit bill. Minister Von Scholz, in presenting the bill, urged the necessity of increasing the revenue of the empire in view of the greater precautions demanded for the security of the fatherland. The bill, he said, especially affected the agricultural interests of the government. He believed, however, the south German States, without endangering the interests of their distilleries or agricultural classes, could support the tax. The majority of the speakers that followed declared in favor of the bill. Riedel, Bavarian finance minister, stated he would support the bill in the general interest of Germany, but Bavaria was not disposed to renounce her rights. She gave her approval under reserve. He demanded a careful inquiry as to whether or not business of the Bavarian distilleries would suffer under the bill. Representative Schmidt, of Wurtemburg, said the bill met the views of the Wurtemburg government and it was an especially happy circumstance that the measure threw a fresh bond of union around Germany.

The Earth Quakes.

GUAYMAS, Mex., May 10.—Shocks of earthquake continue at Ures. Many buildings are cracked and rendered unsafe: Nobody was hurt, but inhabitants are leaving as fast as possible. A large slice of the mountain near the town fell down with a terrible crash on Monday. The friction of rocks ignited the woods, causing a belief a volcano had broken out at the Delicca Santa Elena mine. The earthquake caused great panic.

Breach of Promise.

SCRANTON, Pa., May 10.—Franklin Howell, a wealthy banker, was sued on Tuesday by a Pittsburgh lady for breach of promise, the damages asked being $75,000. About a year ago Howell was sued by a well known Scranton lady, who laid damages at $45,000. That case was settled mutually. It is thought that Howell is not sane, and an application will be made to the court for the appointment of a committee to take charge of his estate.

The cause of the suspension of two barb wire manufacturing establishments at Chicago is said to be the working of the interstate commerce bill, which simply shut them out.

District Assembly, No. 49, K. of L., at New York, has been quietly organizing the Chinamen into the K. of L. assemblies. There are mixed assemblies including cigar makers and laundrymen, and the master workmen are Chinese.

Stubbs, of the Southern Pacific and his party, who left Chicago on Tuesday for New York after the meeting of the transcontinental lines, said that they would meet the competition of the Canadian Pacific, the Pacific Mail and the clipper ships in their own way, which means that they will bid lower than those companies for business.

Proposes to Knock the Bottom Out of the Coercion Bill—It Will Involve Neither Crime Nor Violent Resistance of Law.

DUBLIN, May 11.—At a meeting tonight of the Irish National League, Dillon said he had clearly in his mind a line of policy for the people of Ireland, which he would produce at the proper moment and knock the bottom out of the Coercion Bill. When the bill was passed landlords would find that the "plan of campaign" would continue without the slightest interruption or inconvenience. He proposed a policy that would involve neither crime nor violent resistance of the law.

CANADIAN NEWS.

American Vessels Cannot Purchase Provisions in Canadian Ports—Some Torontonians Ask That William O'Brien's Meeting be Prohibited—Copeland and McLaren Go Under.

Want a Meeting.

TORONTO, May 10.—A deputation of citizens waited on Mayor Howland to-day and presented a requisition for a public meeting to consider the advisability of prohibiting Wm. O'Brien from speaking in this city.

Suspended Payment.

MONTREAL, May 10.—Copeland and McLaren, importers of pig iron, etc., have suspended payment. No statement has yet been prepared but the firm place their liabilities, direct and indirect, at about $235,000.

Can't Purchase.

HALIFAX, May 10.—The American schooner Clara J. Friend which put in here yesterday from the Western Banks applied to the customs authorities for permission to buy a quantity of provisions. Consul General Phelan telegraphed to the minister of customs who replied that no American vessel could purchase provisions in Canadian ports under the provisions of the treaty of 1818 now in force.

AGAINST LANSDOWNE.

William O'Brien Reaches New York and Gives His Reasons for Coming to Canada—He Proposes to Rouse Public Opinion to the Acts of the Governor-General.

NEW YORK, May 10.—Mr. O'Brien left for Montreal at 6:30 o'clock to-night. To an associated press reporter, in speaking of his proposed trip, he said it would be confined to a few principal cities of Canada. "I propose to arouse the public opinion of the people to the acts of their governor-general, Lord Lansdowne, up to the same level as it is in Ireland, and as it would be were he a landlord in Canada and pursued the same course as he has with his tenants in the old country." O'Brien said his story would be governed by the wishes of his friends there. He intended to speak of the state of affairs on Lord Lansdowne's Irish estate in very plain terms. He would point out that the governor-general of Canada had in a most violent and wanton manner pursued a course of action contrary to that which had been laid down as acceptable to the Canadian government. Canada had helped Ireland with money. Mr. O'Brien would show her people how to help Ireland in a more effectual way. He proposed to give Canada the best chance she ever had to strike a blow which would effect wholesale clearances. "Lord Lansdowne," said Mr. O'Brien, "is the first landlord who ever evicted tenants since the "plan of campaign" was adopted. He has depopulated districts surrounding his property, proposing reductions in rents by far more than the official land commissioners are making on surrounding estates and then repudiating the very terms he authorized as a settlement of difficulties and approved by Lord Lansdowne himself. Because he is located in Canada he is able to openly defy and ignore public opinion at home. Our only recourse left to save nearly five hundred people from the destruction of their homes and the little property they possess is to appeal to the Canadian people to protect them against their governor's action as contrary to the opinion of their own parliament." Speaking of threats of personal violence made, Mr. O'Brien said: "There are always threats I believe made in joining in the battle in behalf of the Luggacurran tenants and we are now doing a work as beneficial to the Ulster farmers as to other districts. I do not, therefore, think that any section of Canada will try to disturb me, neither will they try to prevent me from putting my case before the people. If I should be injured in any way it would do far more damage to Lord Lansdowne than it would to me or the cause I plead." Mr. O'Brien intends to speak in several cities of this country upon his return from Canada. He declined to say under whose authority he had started on the trip, saying that he was responsible for his course. Mr. O'Brien did not attach much importance to the scene of disorder at the transfer from the Umbria to the tug. He said the whole thing was stirred up by a party of young English tourists in the smoking-room of the ship and, he added, a young ruffian named Jno. Fox, a tory town councillor of the city of Cork.

MUNICIPAL COUNCIL.

The regular weekly meeting of the council was held last evening. Present, His Worship Mayor Fell and Couns. Grant, Styles, Harris, Braden, Pearse, Vigelius, Coughlan and Barnard.

The minutes of the previous meeting were read and adopted.

COMMUNICATIONS.

From Chas. E. Redfern, offering to act as arbitrator. Received and filed.

From Wm. Jackson, calling attention to the state of the drain on Maclure street in front of his house. Referred to sanitary committee.

From Wm. Lennox, tendering his resignation as hoseman in the fire department as his duties would not allow him to further hold the position. Resignation accepted.

From Fraser & Leonard, Vancouver, calling attention to the fact that they had received the appointment as agents of the Woven Hose Co., and asking the patronage of Victoria city. Received and filed.

From John Jessop, drawing attention to the advisability of winding up the Mechanics' Institute, which cannot be done until the sum of $350 has been raised to wipe off the indebtedness of the institution. Laid on the table.

From nine ratepayers asking for the construction of a gravel sidewalk on the south side of Maclure street and pointing out the advantages of such construction. Referred to street committee.

From J. S. Cowie, calling attention to the state of the sidewalk on Fort and Broad streets in front of the Bee Hive saloon. Referred to street committee with power to act.

From H. F. Sieward, applying for permission to sell liquor on Beacon Hill on the days set apart for the celebration of the Queen's jubilee, *viz*: 21st and 22nd days of June.

Coun. Pearse said that as one of the city council he did not like the idea of liquor being sold on the hill on those days. He thought that the less drinking that is done on that day the better for all persons concerned.

Coun. Braden said that he thought if liquor was to be sold near the grounds a chance ought to be given to someone else to make a little. All the money made on that day should be given to the Nanaimo relief fund.

Coun. Grant moved that the matter be referred to the mayor. He could see what arrangements could be made. Coun. Coughlan seconded and the motion carried.

From S. M. Robins, Nanaimo, on behalf of the Nanaimo sufferers, who wished to acknowledge the kindness of the mayor and council of Victoria for their support in placing $1000 at Nanaimo's disposal. Received and filed.

Mayor Fell said he visited Nanaimo last Sunday to find out for himself how matters stood. He advised Mr. Robins to form a committee immediately. A draft had come to-day for $1000, but he had not taken notice of it.

Coun. Braden thought that the money ought to be forwarded at once, as the people no doubt wanted it.

Coun. Coughlan was of the same opinion but thought that the people of Nanaimo should be allowed to distribute the money as they thought best.

Coun. Harris moved that the $1000 be forwarded to Mayor Gibson and the council. Seconded and carried.

ACCOUNTS.

The accounts for the month of April, which as a total amounted to $4,415.81, were read. Referred to the finance committee and ordered to be paid if found correct.

JUBILEE AND HOSPITAL.

Coun. Grant gave notice of a bylaw, to raise by way of a loan the sum of $5000 for the celebration of the jubilee and the erection of the hospital. The councillor stated that there was no power to spend money for celebration purposes. He promised to bring in a bylaw to enable the council to give to the hospital and Nanaimo sufferers and for a free library.

The original motion was withdrawn.

STREET COMMITTEE'S REPORT.

The committee recommended that an eight-foot sidewalk be laid on Government street from Pembroke street to Finlayson's bridge. That in connection of A. DeCosmos, offering $10 to assist in the widening of the sidewalk on the south side of Cormorant street, between Government and Douglas, your committee recommend that the city clerk be instructed to notify Mrs. Brown, in accordance with the official map act, clause six, to remove from off the street the shanties abutting from her property. That a small portion of rock be removed from George street. That the consideration of the communication of H. F. Heisterman be deferred until the new sidewalk shall have been laid on Belleville street. That the council make application at the next session of the legislature for an amendment to the official map of Victoria to enable them to remove a governing stone on Humboldt street to correct position, and that the city clerk be instructed to write to Mr. Drake, advising him of their intended action in the matter. That a sidewalk be laid on Commercial alley, from Yates street to Bastion square. That the eight-foot sidewalk now being laid on Kingston street, from St. Lawrence to Montreal, be extended to Oswego street. That Commercial alley be graded, cambered and macadamized.

Report adopted.

WATER WORKS COMMITTEE.

The committee reported in favor of the extension of the water service to Mr. J. Lawson's premises.

FIRE WARDEN'S REPORT.

This committee recommended the adoption of an amendment to the rules and regulations in respect to the attendance of firemen, hosemen and hook and ladder men, and imposing fines and suspension for non-attendance at fires. The report was adopted.

THE RESERVIORS.

The water works committee presented a report handed in by Mr. Bell, C. E., who stated that he had found Mr. Hendry's plan a correct one and far ahead of those suggested by several citizens of Victoria. He also made several suggestions.

Coun. Braden moved that the report be deferred until the plans are ready.

Coun. Barnard moved in amendment that the report be adopted and that the work be proceeded with immediately.

A debate, which lasted a considerable time, ensued, Couns, Styles, Braden and Coughlan advocating a new main, and the other councillors maintaining that the reservoir was the best scheme. The amendment was then put and carried.

Coun. Braden asked that the sanitary committee be empowered to employ another man on the streets to clean the gutters. Motion was seconded and carried.

Council adjourned.

A REGRETTABLE VISIT.

The visit of William O'Brien, editor of *United Ireland*, to Canada can only be deprecated by all who have the best interests of Ireland at heart. No staunchier friend of Erin exists to-day than Archbishop Lynch of Toronto, and he has done all he could to prevent his coming. In the face of that venerable prelate's remonstrances he has reached Montreal, accompanied by Mr. Kilbride, one of Lord Lansdowne's evicted tenantsr They purpose lecturing in the principal upper province cities. Of course this is a free country and no *legal* objection can be made to their lecturing if they can find audiences, but it is exceedingly to be regretted that at this time any attempt should be made to injure the representative of the Queen in this country. Whatever his merits or demerits may be as a landlord he is being attacked in another capacity where he has no opportunity to retort. It is proverbial that there are always two sides to every story, and it is just possible that had Lord Lansdowne an opportunity of meeting Mr. O'Brien on the platform he could give quite a different account of the matter. The fact that he has been presented with an address signed by a large number of his tenantry, expressing satisfaction with the treatment they have received from him, would seem to bear out this supposition. It must be confessed it seems cowardly to attack a man who cannot defend himself, and the wrong is all the greater when that man occupies the position the governor-general of Canada does. It is stated that Mr. Parnell disapproved of the editor of *United Ireland's* tour. What good can he hope to accomplish? To raise a Home Rule feeling in Canada and the United States? That is already as intense as it well can be and no effort of Mr. O'Brien's will increase it. Is it to discredit Lord Lansdowne with the people of Canada? His recent triumphant entry into Toronto proves that such a result cannot be achieved. The fact is the whole affair is a gigantic blunder, and can only harm the cause it hopes to serve. We do not agree with many of our contemporaries in the east that bloodshed will ensue as a result of Mr. O'Brien's action. We conceive that our eastern friends have too much good sense to seriously meditate for an instant such a course. Free speech is one of our proudest boasts and those who do not care to hear the speeches have the privilege of staying away. No practical good can come of the agitators' visit, and the best policy would seem to be to let them severely alone. If, however, they wantonly insult the representative of her majesty in Canada—that is another thing. But Mr. O'Brien has always been given credit for a wise discretion, which would prevent his indulging in such a course. One of Ireland's ablest men, he will doubtless be accorded a distinctively Irish welcome. Had he come on any other mission than to defame the governor-general it would have been more general and spontaneous.

CHURCH AND STATE IN GERMANY.

The *North German Gazette* of April 10th refers to the origin of the Kulturkampf, and quotes some reports which Count Arnim, as Prussian minister at Rome, forwarded in June and July, 1870, as well as several notes from Prince Bismarck, bearing upon the subject. The semi-official organ says:—"We are now in a position to publish, with special reference to the incorrect assertions of the press of the centre party, a further series of documents relating to that time, from which it appears that the attitude of the Prussian government in regard to the papal infallibility dogma was one of expectancy. Notwithstanding the pressing representations continually made by Count Arnim, of which the documents afford ample proof, the government considered it advisable to observe a strict reserve in the infallibility question, and did not allow the latter to cause any disturbance in their good relations with the pope. Such a disturbance was only produced by the ill-feeling which, as explained in previously published dispatches, was manifested towards Roman diplomacy after the Curia had refused to assist the government against the attacks made upon them by the centre party, whose action at the outset was marked by abuse of the papal authority. The further course of events proved that by the imperial chancellor the Kulturkampf was understood to be merely an interruption of peace or a provisional state of war, and that he intended in no way to make the latter permanent. It further showed that the conflict began at the same time as papal policy commenced to side with the centre, and Pope Pius IX. allied himself with this anti-government party. In this way a period of strife commenced which was brought to a close the moment when, in consequence of a change of pontiff, it was found possible to prepare the way for the re-establishment of peace."

USE OF THE WORD "HABANA."

The case of Newman et al. vs. Pinto et al., lately decided by Mr. Justice Kekewich in the chancery division of the high court of justice, England, arose upon a petition for an injunction to restrain the defendants from infringing the plaintiffs' trademark. The defendants opposed the granting of an injunction upon the ground among others, that the use by the plaintiffs of the term "Habana" upon their cigar boxes was itself a fraud, since there was no Havana tobacco in the plaintiffs' cigars. The court, in granting the injunction, said that it had been proved that the word "Habana" was in common use on boxes, whether coming from one part of the world or another, and that it had been in use that way for a great many years. He agreed that if it were a fraud the mere fact that all the cigar merchants, manufacturers and retail dealers in London had practiced this fraud would not assist the plaintiffs, nor would it prevent the court expressing a strong opinion adverse to such a fraud. But it had been proved that the use of this word "Habana" on all sorts of boxes had been continued for at least twenty-five years, and one witness said he could not remember the time when the word "Habana" did signify that the cigars came from Havana. It, no doubt, originated when there were none other but Havana cigars. It had not only become a custom of the trade, but he must take it to be a custom well known to every purchaser of cigars. He agreed that the court must protect the public, not only the wary, but the unwary. According to the evidence it was clear that ordinary smokers of cigars must know when they purchased a cigar marked "Habana" that they were not buying a cigar made in Havana, but that it was manufactured somewhere else. Whether the use of the word "Habana," in the first instance, was wrong or not, his lordship was not competent to say. It did now indicate, and had not indicated for a long series of years to the public, wary or unwary, except perhaps, the inexperienced few who were buying a 2d. or 3d. Havana for the first time, that the word was used in such a way as to be a fraud. The defendant was rather in a difficulty beyond that, because he used the word himself. In his judgment all manufacturers, importers and dealers were at liberty to place the word "Habana" on their boxes of cigars, and his lordship did not believe it had caused the slightest deception to any one person up to this time, and he was certain it would not in the future.

We clip the following paragraph from a Boston paper:

A large audience in Trinity church last evening listened to a very interesting address by Mr. William Duncan, the English missionary, who has done such wonders among the Indians of British Columbia. Mr. Duncan is in the United States as ambassador from the Indians to obtain for them from the government land in severalty in Alaska, as the grasping Canadian policy will force them to leave their present homes. Their desire to emigrate into the United States has been made known to Governor Swineford, of Alaska, who heartily seconds it, and has pledged the assistance of his influence with the governments. In Mr. Duncan's view the granting or refusing of these lands in severalty will determine for many years to come the progress or retardation of civilization among not only these but other Indians.

According to the Charlottetown *Examiner* the Prince Edward Island house of assembly nearly lost at least one of its members the other day. As the result of a heated debate, in which some strong personalities were used, one member challenged another to mortal combat, and the challenge was accepted. Each of the bloodthirsty legislators appointed a second, to whom was left the arrangement of the preliminaries. Most of the consultation between the seconds, however, was occupied in discussing how they could best avoid being shot themselves, as neither of the principals was at all skilled in the use of firearms. One suggestion was that they should both fall flat on the ground as soon as the word "fire" was given, and this plan was finally adopted: It seems, however, that the principals fully appreciated the difficulties of the situation, and, while they were careless of their own lives, they did not care to endanger those of their friends. The upshot of the matter was that the duel was declared off, and there are no vacant seats in the assembly.

NEWFOUNDLAND.

Railway Building on the Island—How the Story of the Loss of the Eagle Started—The Result of the Sealing Season.

[Correspondence Montreal Gazette.]

ST. JOHN'S, Nfld., April 19.—The ancient French capital will ere long be connected by rail with St. John's. The present railway between the capital and Harbor Grace at one point comes within twenty-six miles of Placentia, and, as I mentioned in previous letters, the government decided last year to commence a branch railway to Placentia, as one of the most useful public works upon which the destitute people could be employed. The work was prosecuted during last fall and winter with great vigor, from 1,500 to 2,000 men being employed on it. Resolutions approving of the action of the government in this matter, and in favor of the completion of the work, were recently submitted to the house of assembly, and adopted almost unanimously, only two members voting against them. Placentia is but thirty hours' steaming from Louisburg, a harbor that is open throughout the winter. Were this railway completed and a line of steamers placed on the route to Louisburg, and were the continental system of railways extended to that place, as I believe will shortly be the case, we should then have a mail route by which our communication with the outside world would be quickened and improved. Instead of a fortnightly mail we might have one twice a week. It would also be a favorite travel route. It is not thought there would be any greater difficulty in keeping open the communication during winter than there it at present *via* Halifax and St. John's. This branch line of railway will open up a considerable extent of cultivable land. The facilities for construction are so great that the cost is expected not to exceed $10,000 per mile.

The arrival of the sealing steamer Eagle a week ago was an occasion of great rejoicing. All sorts of wild rumors of portions of her wreck having been seen were in circulation. She was believed to have been driven on the Funk islands in a gale, to have struck on the rocks and blown up, and that the 260 men on board had perished. Great anxiety was felt, especially by those whose relatives were on board, but all intelligent persons knew how unreliable are these sensational rumors, and as there was no tangible evidence, they paid little attention to them. Meantime the sensation mongers were working the wires and scattering tidings of the dismal disaster through the press of America and England as though it was an ascertained fact. On the 10th of April the Eagle came into port with a fine trip of 20,000 seals on board, having met with no accident, and having had rather an uneventful voyage. The whole story originated from an old ladder and some other loose materials having gone overboard accidently in a gale. The ladder had branded on it the name of the ship. It was picked up, and the imagination did the rest, as the story, like that of the three black crows, was passed from lip to lip.

Our sealing steamers have as a whole done very badly this year. The great bulk of them were caught in the ice off Bonavista, and held fast till the season was too far advanced to do much. I doubt if the aggregate taken by the steamers will exceed 120,000 seals, an average of only 6,000 seals each. The only large trips were those of the Terra Nova, 30,000, and the Eagle, 20,000. The crew of the Terra Nova shared only at the rate of $30 a man. This is owing to the low price of seal oil. How little the crews of the others realized may be imagined. "It is an ill wind blows nobody good." The east wind which bound the steamers in icy chains, drove in the seals on the land, and great numbers have been taken by the residents on shore. Some estimate the number thus taken at 50,000, and others at 100,000. Even allowing for this, the catch will be very poor—hardly above 200,000, possibly much less. Seal oil is now largely displaced in manufactures by a cheap oil made from crude petroleum, so that its price has declined. On the other hand, sealskins have risen considerably in value.

ST. JACOBS OIL

THE GREAT GERMAN REMEDY WILL SURELY CONQUER PAIN

CONQUERS RHEUMATISM.

Sir Roger Tichborne's Acute Rheumatism Cured.

115 Fourth Ave., New York, N. Y. February 23, 1887.

For the last four months I have suffered from rheumatism, and every time I sat down and got up I suffered the most acute agony, in fact I was not able to move my legs without pain, and when going down stairs the pain was too dreadful to bear. I was recommended to send for a bottle of St. Jacobs Oil and try it. I did so, and to my great surprise and delight I found it an almost instant cure as regards the pain. I have only used one bottle up to the present, but I now can sit down, get up, and walk about without the slightest pain.

R. E. D. TICHBORNE.

Rheumatism 13 Years—Cured.

Mr. James Maloney, Sr., Orillia, Ontario, says: I have been a sufferer with rheumatism for the past thirteen years, and have tried during that time, many of the remedies advertised for it, but all without effect. I was induced to use St. Jacobs Oil. With its use the pain vanished and has not since returned.

Nothing Equals It for Rheumatism.

Capt. Chas. W. Crowley, President of the Canadian Sailors' Union, Princess street, Kingston, says: St. Jacobs Oil is indeed a most remarkable discovery; I think there is nothing equal to it for the cure of rheumatism and like diseases.

Rheumatism—Knees and Ankles—Cured

Hon. E. J. B. Pence, Mayor of Kingston, Canada, suffered with severe rheumatic pains in the knees and ankles and was promptly cured by St. Jacobs Oil.

Every application gives relief; every bottle retains a cure; every bottle tested as to quantity; every genuine bottle bears the firm's fac-simile signature; every home in America and Great Britain knows its value; every spoken language knows its name; every journal praises it; St. Jacobs Oil. Every dealer knows to recommend; every chemist finds it perfect. Sold by Druggists and Dealers. Price fifty cents per bottle. The Charles A. Vogeler Co., Baltimore, Md., U. S. A. 17. The person obtaining such permission as last aforesaid shall, during the continuance of the work or obstruction in question, keep and maintain all such fences, lights, and watchmen, and take such further precautions as may be necessary to prevent accident to persons or property, or as may be required by the street committee or the city surveyor, and shall be responsible for all accidents that may occur to any person or property by reason of such work or obstruction. (Id.)

(No. 85, ss. 27-8.)

22. Every person riding or driving along any street shall keep to his left-hand side except when passing another horse or vehicle which is going in the same direction or standing still. (No. 85, s. 13.)

24. No person shall ride, drive, lead or back any horse or vehicle, or any wheelbarrow or other hand carriage (except hand carriages for children) against, over or along any public foot-path or sidewalk, unless crossing it at a proper crossing to enter or leave any premises. (No. 85, ss. 11 and 12.)

25. No rider, driver or owner of any horse shall permit it to run at large in any street, or leave it standing unattended in any street without being securely fastened to a post or to a block of metal at least thirty-five pounds in weight. (No. 9, s. 8.)

Mr. E. J. Abrahams, manager of the Lewis Morrison troupe, has extended invitations to Lieut.-Governor Nelson, Sir Michael Culme-Seymour, Sir Wm. Wiseman and Commanders Oxley and Nicholls of H. M. S. fleet, Esquimault, to occupy boxes each evening during the engagement of his company at The Victoria. Several of the gentlemen named have already accepted.

An Excellent Portrait.

James Fisher, marble cutter, has cut an excellent likeness of the late Hon. Mr. Smithe, in relief, in white marble. The portrait is taken from the lithograph issued by THE COLONIST and the sculptor has most faithfully reproduced it in marble. He is to be congratulated on the result of his work, for it is in every way a creditable production, and proves him to be a conscientious artist, every detail being perfect.

Arrival of the Soule from China.

The American ship Enos Soule, Soule, 1443 tons, arrived at Welch Rithet & Co's wharf, to whom she is consigned, yesterday morning in tow of the tug Pilot. She has about 1150 tons of merchandise, principally for Chinese merchants in this city and the interior. She was about 45 days making the trip from Hong Kong. Following is a list of the names of the consignees: Orders—C., B., C., A., D., Silver State, E. F., E. T., W. R., Wah Hing, Wah Yuen, Kwong Chong, Kwong On Tai & Co., Kwong On Lung, Quong Fook & Co., Wah Hing Sam, Kin Tai, Hip Soong, Tai Yuen, Lun Choong, Sam Kee, Wah Chong, Tai Kee & Co, order—C. Shipment of Coal.

The *Free Press* says that no coal has been loaded into the ships of the Vancouver Coal company, since the unfortunate accident. The ship Harvester, Capt. Taylor, has accepted a charter to load a cargo of coal from Seattle, and will leave for that port as soon as a tug can arrive.

But very little coal has been loaded at the Wellington collieries during the past week, owing to the mines being closed down to enable the miners to assist in recovering the bodies in the V. C. Co.'s ill-fated mine. Work is now resumed, the miners of the latter company being able to carry on the exploration down the new slope. The steamship Wellington, Capt. Whitworth, arrived at Departure Bay on Monday and will load Wellington coal for San Francisco.

Owing to the miners of East Wellington assisting in the rescue of the miners in the V. C. Co.'s mine, but a small quantity of coal has been loaded. The steamship Empire, Capt. Butler, arrived from San Francisco on Friday afternoon, and will load coal at East Wellington.

Sale of Lots.

A considerable number of prominent business men assembled at J. P. Davies & Co.'s auction rooms yesterday at noon, to bid on the lots held for sale. Great disappointment was evinced at the withdrawal of the Maplehurst lots, but intending purchasers may yet have an opportunity of bidding on this desirable property. Following are the names of the successful bidders and the prices paid for the lots:

The Concordia.

Ed. Norton, proprietor of the Concordia Theatre, announces his intention of giving a benefit on Friday evening for the Nanaimo sufferers, full particulars of which will be given in to-morrow's issue.

Lecture.

Rev. John A. Williams, D. D., lectured last evening in the Pandora street Methodist church to a large audience, his subject being "Credulities of Scepticism." Needless to add the intellectual treat was heartily enjoyed.

A Pleasant Visit.

Lady Hervey, Miss and Mr. Bidwell, Dr. and Mrs. Alexieff, Mr. and Mrs. D. R. Munro and Mr. G. V. Heathcote, visited the Chinese club in Cormorant street last evening on the special invitation of Mr. Mongkow, of the Kwong Tai Co., where they were regaled in a princely manner. Both parties left Victoria with the most pleasant recollections of their visit to Chinatown.

Nanaimo Relief.

Another good contribution, says the Vancouver *News*, for the relief of the Nanaimo sufferers has been sent in by the owners and employés of the Commercial Sawmills (Leamy & Kyle.) The list is headed by Leamy & Kyle, who contribute $20; C. R. T. Garrioch, $5; W. H. Chase, $5; J. G. Woods, $5; and a large number of other subscriptions ranging from $1 to $5, making in all the sum of $97.75.

The Starr's Accident.

When the steamer Geo. E. Starr was making a landing at Port Townsend on Saturday last a heavy south east wind was blowing directly on the wharf which prevented her engine from stopping her. A small steamer was lying in the Starr's way and it was either a case of running her through or damaging the wharf, Capt. Roberts with a promptness and coolness, for he had very little time in which to choose, directed the course of his vessel on the wharf. She struck with considerable force injuring her upper works and making a large hole in the dock. The damage done entails a cost of several hundred dollars.

Death of Miss Calligan.

In the midst of the sad carnival of death that has hovered around this city since the report and flames on Tuesday evening showed that an explosion had taken place in the Esplanade shaft, the sudden death of Mary, a daughter of Mr. John Culligan, brought a tear to every eye. The deceased was engaged to be married to a young man killed in the explosion, in addition to which the young lady was a life-long friend of Michael Lyons, a lad who lost his life in the explosion. The deceased was deeply afflicted by this double bereavement, and incautiously visited the school-house, where so many bodies were lying. The shock brought on convulsions and although all the medical men were called in, she died at 1 o'clock on Monday morning. A few months ago her father was seriously injured in the same mine.—*Free Press.*

A New Port of Entry.

We undersiand that representations will be made to the minister of the interior, regarding the advisability of making Kamloops or some other place near that point a port of entry. Heretofore imported goods either from England or the United States have been taken to New Westminster, where those living in the upper country have had to clear them. This was all very well before the C. P. R. was completed as there was no other way of procuring goods except by the Royal City, but now importers find that considerable loss of time and often expense results from the goods being taken there and then re-shipped. Kamloops, it is stated, would be a convenient place for all concerned and it is hoped that satisfactory arrangements will be effected before long.

"Faust" at the New Market.

In the production of "Faust" last night at the New Market Louis Morrison achieved a most notable triumph. It exceeds in magnitude any attempt of the kind ever made in this city, and surprised everyone present. In such a production, considering the character of Goethe's work, the effects can not be said to have been realistic, for in point of fact they were more so, in their vividness and portrayal of the idea and philosophy of the great German author. The whole play as presented was a noble effort to photograph the supernatural as contrasted with the human. The stage effects displayed great ingenuity in execution as well as intelligence in conception. The scenery was far more ambitious and more thoroughly artistic than we had any right to expect. Every detail seems to have had attention resulting in a combination of the spectacular, that discounts anything we have had. While the scene, the Brocken on Walpurgis Night, created the wildest enthusiasm, there was not one that was not of a superior order. The Garden scene was a triumph of stage art, but everything paled in comparison to the Brocken scene, representing the interior of pandemonium with all the attending episodes. The Plaza of Nuremberg, the Fountain, and shrine of the Virgin, and the Prison scene, were really magnificent. At the close of the Brocken scene the audience applauded continuously and were not satisfied until the curtain had been raised five minutes. This was followed by a most tumultuous demand for Mr. Morrison, and his appearance amounted to an ovation.

As to the cast, Mr. Morrison's Mephisto, calls for first mention. His conception is able and subtle. There are times when he approaches the burlesque, it was but for a moment. He is thoroughly develish and cunningly sardonic. His lines are given most effectively, and at no point does he fall below the demands of the role.

Mr. Hosmer's Faust was well sustained. It can be said that he is conscientious and earnest in all he attempts.

Mr. Staley made an excellent Valentine. His death scene with the electric flashes from Mephisto's sword was a clever piece of stage work. As Martha Miss Carter made a pronounced success, although on one or two occasions she seemed to overdo it somewhat. This is the only criticism that was suggested. At the close of the Garden scene she received a most spontaneous recall. Her appearance before the curtain was the signal for such an outburst as few have received in the New Market.

Miss Morrison made an excellent Marguerite. At first she seemed a trifle hurried in her lines, but gave the *role* a gentle and modest bearing. In the Prison scene and before the shrine she displayed astonishing dramatic force and conception.

Of the whole production we have nothing but words of praise. It should run the entire week, and before crowded houses. In dramatic, scenic and spectacular qualities it surpasses expectation.

The above is from the Portland *Oregonian* whose criticism in every way appears a just one. "Faust" will be produced at The Victoria in exactly the same style as

The Water Supply.

A lengthy discussion ensued at the meeting of the city council last evening over Mr. Bell's report, which is in favor of Mr. Hendry's scheme regarding the reservoirs. Couns. Coughlan, Braden and Styles were all against Coun. Pearse's statement, and maintained that that gentleman was decidedly out in his calculations. On the other hand, the councillor says he is right, and Coun. Barnard's amendment that the work be proceeded with immediately was carried. This question has been before the council for a long period, and the people who live on the higher levels have begun to despair of ever getting the water. Many, however, do not want the needed fluid if it is going to cost more than the amount they have already voted upon.

Nanaimo Relief.

This morning, says the *Columbian*, Mr. A. H. McBride, warden of the penitentiary, mailed a cheque for $72.50 to Mayor Gibson for the Nanaimo relief fund. This sum was contributed by the officers of the penitentiary. Subscriptions are being circulated through the city for the same purpose, and it is proposed to take up special collections in the churches next Sunday. The city council will vote a certain sum from the city treasury at its meeting to-morrow night, but the amount has not been determined. Arrangements are being made, we believe, to give a concert shortly for the same object at which it is expected those who took part at the last concert will appear as well as others.

For Sweet Charity's Sake.

Saturday night's entertainment in aid of the Nanaimo sufferers promises to be a most enjoyable event. In addition to the local talent of the St. Andrew's and Caledonian Society, Miss Campbell, of New Westminster, who has a voice of wonderful richness, will sing the "Magnetic Waltz Song" and "Jessie, the Flower O'Dunblane." Mr. E. G. Prior, M.P.P., has kindly consented to sing "The Miner" at the close of the first part, when the Lewis Morrison company will assume charge and play in its entirety some of their choicest pieces. The joint performance promises to be the event of the season and as it is in aid of a most worthy object ought to be well patronized. Seats are being rapidly taken up, and those who wish to attend ought to lose no time in calling in at Waitt's, where the plan can be seen. Mr. D. R. Munro has been the guiding spirit of the affair and is now assured of a grand success.

PERSONAL.

J. C. Devlin and Fred. Brown were passengers by the Louise.

Capt. J. W. Glaholm having passed the necessary examination, has been licensed as a pilot for the Nanaimo pilotage district. He will assume the duties in a few days.

METHODIST CONFERENCE.

The first session of the British Columbia conference of the Methodist church was held in Wesley church, Pandora avenue, yesterday morning, at 10 o'clock.

Rev. Dr. Williams, general superintendent, initiated the organization of the conference by reading Psalm 85 and part of the 2nd chapter of the Epistle to Titus.

Hymn 753 being sung, Rev. C. Bryant and Rev. J. Hall led in prayer.

Dr. Williams then charged the conference with the great and important interests committed to their trust, viz: "The care of the doctrines of the church" and "The conservation of the character of the church."

Rev. E. Robson was elected president of the conference; Rev. J. Hall, secretary; Rev. J. Turner, assistant secretary, and Rev. C. Bryant, journal secretary.

The character and ability of the ministers of the conference being examined were found to be perfectly satisfactory.

A "committee of nominations" was proposed and duly appointed.

The usual questions in reference to the number of probationers and candidates for the ministry remaining on trial were asked and answered.

The number of ministers holding a superannuated relationship with the conference were duly reported.

Standing and credentials were granted Rev. T. Haddon at his own request.

Rev. J. E. Starr, of Toronto conference, Rev. J. Turner of London conference, Rev. Mr. Wadman, M.A., of New Brunswick conference, Rev. J. Calvert, of Bay of Quinte conference, were reported as transferred to the conference in British Columbia, and Rev. C. Watson as transferred from this conference to Toronto.

The afternoon session opened with the usual devotional exercises.

The minutes of the previous meeting being disposed of, memorials were received from the Victoria and New Westminster districts and referred to committees.

The committee on nominations rendered their report.

Rev. W. W. Percival tendered his resignation which was referred to a committee.

At 5:50 o'clock conference adjourned, the Rev. Dr. Williams pronouncing the benediction.

Astonishing Success.

It is the duty of every person who has used *Boschee's German Syrup* to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Astema, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the *German Syrup* cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers, in the United States and Canada. dw

NEW WESTMINSTER ASSIZES.

(Before Mr. Justice McCreight.)

In the case of William Shearer, charged with the murder of James E. Murne, prisoner pleaded not guilty.

Mr. Corbould, on behalf of the prisoner, asked for an adjournment of the trial to the fall assizes. He produced the certificate of Dr. Bentley that there were doubts as to the prisoner's sanity. He also produced the certificate of Dr. Trew to the same effect. Mr. Wilson, for the crown, and Mr. Bole, for the relatives of the deceased Murne, contended that the trial should go on at once. According to the certificate of Dr. McInnes and Dr. McLean the prisoner was perfectly sane. (Certificate here produced and read.) There were many witnesses for the crown who could not be obtained if trial were postponed.

Mr. Corbould argued that the prisoner was not in a sane state of mind and utterly unfit to instruct counsel how to conduct his defense.

His lordship ordered that a jury be empanelled to decide as to whether or not the prisoner is sufficiently sane to instruct counsel as to his defense.

Mr. Corbould here withdrew from the defense and his lordship called upon Mr. Atkinson to act in behalf of the prisoner.

A jury was then empanelled. During the afternoon various witnesses have testified and given their opinion on the question at issue. The jury have not yet retired.—*Columbian, 18th.*

PORT TOWNSEND NOTES.

FATAL ACCIDENT.

Robert Williams, a deckhand on the steamer Virginia, was instantly killed on Tuesday night while the steamer was landing. Some lumber had been piled on the dock, a portion of which protruded over the water for a few feet. The night being exceptionally dark the deceased did not observe the lumber. Standing on the forward deck, the steamer going at full speed, he was struck directly over the heart and instantly killed.

The quartermaster on the steamer Ancon which arrived on Tuesday evening at Port Townsend, had his foot badly smashed by some freight falling on it.

A deckhand only a few minutes later fell through the hatchway and sustained a bruised countenance.

NEARLY DROWNED.

Mr. William Bell, family and Miss Croake, of Port Angelos, were taking a boat sail on Monday in the Angelos harbor when a squall capsized the boat, throwing all of them in the water. But for the heroic action of Captain Samsonsen, of the outward bound bark Elsinore, all would have been drowned. The worthy skipper was returning from the shore, and perceiving the accident, proceeded with all possible haste and rescued the unfortunate party.
